# How to Place HelloPush Notification Service Worker File Using *cPanel*

This document provides clear, step-by-step instructions for implementing a service worker on your website using cPanel.

### 1. Log in to cPanel

Access your website's cPanel by entering your cPanel URL (e.g., <u>https://yourdomain.com:2083</u>) and logging in with your credentials.

### 2. Open the File Manager

- Navigate to the **File Manager** under the "Files" section on the cPanel dashboard.
- Go to your website's root directory (usually public\_html), where your website files are hosted.

## 3. Upload the Service Worker File

• Click the **Upload** button in the File Manager toolbar.

<b>CP</b> File Manager								
+ File	+ Folder	🕻 Сору	Move	1	👤 Upload 🛛 🛓 Downl			
*			Go		A Home	e 🤰 Up One Le		

- Select the attached hp-service-worker.js file from your local computer and upload it to the root directory.
- Ensure the file is accessible at

https://yourdomain.com/hp-service-worker.js. You can confirm this by typing the URL into your browser.

P File Upload						
Select the file you want to upload to "/home/						
Maximum file size allowed for upload: ∞						
Overwrite existing files						
Drop files here to start uploading						
or						
Select File						
hp-service-worker.js						
715 Bytes complete						
Go Back to						

#### 4. Edit Permissions (If Necessary)

- Right-click the hp-service-worker.js file in the File Manager and select
   Permissions.
- Ensure the file has 644 permissions (readable by everyone and writable by the owner).
